# MyLifePreserved Offers You exceptional services

## Time capsule of life

### **Time capsule of life**

MyLifePreserved is the most comprehensive and complete website that enables users to capture and store the personality, life events and accomplishments of an individual. In addition users can recount and share those personal stories and interactions of our loved ones lost, which will keep their spirit alive for all time.

# Custom BIO Page

## Custom BIO Page

Our custom BIO focuses on the key aspects that molds and creates each of our personalities. This information is the foundation that forms the structure of who we are. When linked together with the other aspects of this site a clear and concise picture is created of that individual that is preserved for the thousands of generations that come afterward.

# Cyber Gifts

## Cyber Gifts

We offer many cyber gifts that can be left to reflect our emotions at that time as a way to remember those that have passed. Each cyber gift can be scrolled over in order to view the person that left it. It will appear for 21 days before it automatically comes down.

# Cyber Garden

## **Cyber Garden**

Our cyber garden becomes a personalized hallowed ground of respect that can be reached by anyone from anywhere in the world at anytime.
